# Husky Happenings & Upcoming Themes ✨

Our 1st through 5th grade group has been full of wonder and curiosity!

Space is an upcoming theme this month and as we launch into our solar system, our group will get to explore and learn about our mysterious universe.

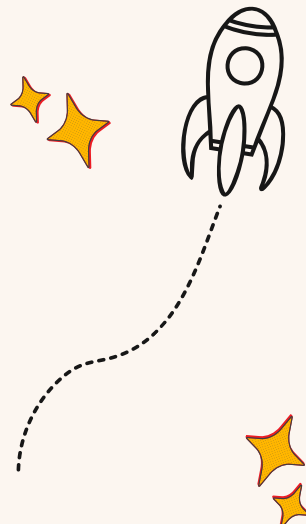

Our group goals are to nurture the children's sense of curiosity and learn about the importance of Earth's natural resources.

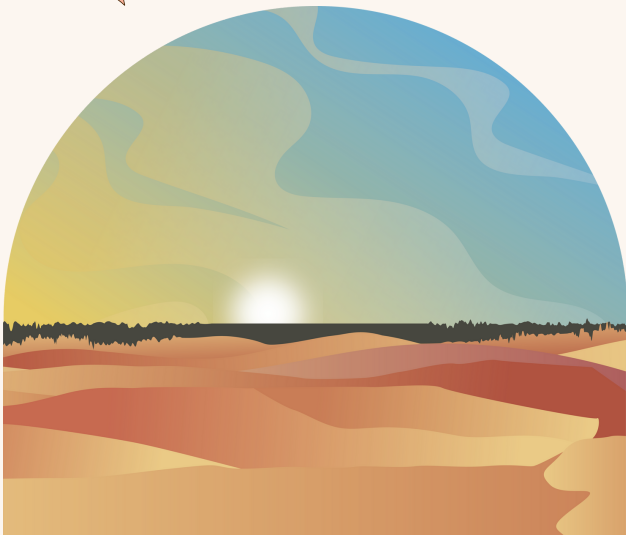

**AWESOME!**

## Upcoming Activities:

- Space Travel Handbook
- Magnatile Spaceship Challenge
- Outer Space Simulation
- Building Spaceship Creations

## ✨ ✨ Husky Pups in Action & February Themes

Our TK and K group themes this month are “Feelings” for social emotional development and the “Desert Habitat”.

Our teachers continue to be intentional with the display of thoughtful dialogue for expressing specific emotions. For example, “I am feeling excited because we will get to cook a new recipe today!” or “How could you tell he/she was feeling sad?” This will help to generate our group discussions on the many different feelings we all have and what each one can mean to us in different situations.

The TK and K group shows excitement for the special Wednesday choice of cooking and taste-testing a new recipe!

Our group goals are to continue to help build friendships and to help children with the language for feelings needing to be expressed.
